22nd April 2021

Dear Sir/Madam

I hereby confirm that Mr DIEUVEIL ORCEL THYS-DINGOU, student number 214349721 is registered as a MEng in Electrical Engineering student at The Cape Peninsula University of Technology in the department of Electrical Electronic and Computer Engineering. His supervisor is Dr Atanda Raji from the university and the co-supervisors are Prof. Edith Zinhle Buthelezi and Dr Siegfried Förtsch from iThemba LAB.

Below is the progress and proposed work schedule of the research project as reported by the student.

The proposed solution has been tested and validated by iThemba LABS as well as experts from CERN. I am done writing chapter 1 & 2 and I am currently busy with chapter 3. These will be sent to the university supervisor via the HDC Digital System as soon as they are reviewed by the co-supervisors as agreed upon in the SSA. I still intend to complete my thesis this year. Hopefully, around June/July 2021.

Please contact me if any further information is needed.

Yours Sincerely,

A handwritten signature in black ink, appearing to read 'Raji'.

Dr AK Raji
